

NATURAL HORSEMANSHIP HORSE TRAINING CLINIC

- What:** We are holding a 1 ½ day clinic training horses with natural principles.
- When:** June 12 from 2pm – after supper and June 13 from 9am – 3pm (or later)
- Where:** 210 Upper Durham Road, Durham Bridge, NB
- Cost:** \$180 to participate with a horse (handler and one auditor included)

\$25 to audit each day

We will be starting some horses and finishing others, and will be addressing specific issues for all. Because we will be working with horses at various stages, there should be LOTS of information available for anyone attending. Our goal is to have the horses comfortable in their new learning by the end of the weekend, solid in their ground-work, on a solid footing & relationship with their handlers, desensitized to a number of items – and able to go on a simple trail ride – though we will assign handlers on the ground for horses that are new to the trail.

Participants will need a rope halter/long lead and these should be available for sale at the clinic. We are also hoping to have some rope riding halters available. Auditors and participants are welcome to tent/camp overnight.
